

Name: Dr Ciang Sang Tan

Position: Paediatric Immunology and Infectious Diseases specialist

Organization: Hospital Melaka, Malaysia

Country: Malaysia

Greetings, fellow junior members of ESID! My name is Ciang Sang, with a deep passion for immunology and a commitment to advancing the mission of ESID, I am excited about the opportunity to serve our community.

I am a paediatric immunology and infectious diseases specialist in my country. I completed my training at local hospitals in Malaysia, as well as at Evelina London Children's Hospital and Great Ormond Street Hospital in London. These experiences have equipped me with a great clinical experience, allowing me to provide exceptional care to my patients.

As an active junior member of the European Society for Immunodeficiencies (ESID), I am committed to advancing the field through collaboration and continuous learning. I also serve on the Continuing Medical Education (CME) committee of the Clinical Immunology Society (CIS), where I help to develop and oversee educational programmes that keep our community at the cutting edge of clinical immunology.

My professional journey has been driven by a passion for making a meaningful impact. I am dedicated to inspiring and leading my colleagues in our shared mission to improve patient outcomes and advance medical knowledge. I believe that through teamwork and innovation, we can overcome the challenges we face and achieve remarkable progress.

I am excited about the opportunity to contribute as a country representative on the ESID junior committee. In this role, I aim to represent the interests and perspectives of my peers, foster international collaboration, and promote initiatives that enhance the training and development of future immunologists. I look forward to working with esteemed colleagues from around the world to make a positive and lasting impact on our field.
