

ESID Junior Country Representative Candidate – Zeynep GOR SHORT BIO

Zeynep Gor graduated from Marmara University Faculty of Medicine (Istanbul, Turkiye) in 2013. She started her pediatric residency training in 2015 in Cemil Tasciođlu Research Hospital in Istanbul. She finished her residency training in 2019 with the intention of becoming a fellow in pediatric allergy and immunology. Between 2020-2021, she completed her obligatory state service as a pediatrician and in 2022, she started her fellowship training in Zonguldak Bulent Ecevit University (TURKEY). Currently she is doing a clinical rotation regarding Primary Immune Deficiencies in Hacettepe Ihsan Dogramaci Children's Hospital (Ankara, Turkiye).

From 2022, she is continuing her research in pediatric immunology and actively taking part in the diagnosis and follow-up of primary immune deficiency cases in her university's pediatric care unit. She took part in numerous national congresses of immunity and was selected for ESID 2023 PIDCD School in Split, Croatia, and received a travel grant. Apart from that, she received a travel and accommodation grant in Recent Advances in Primary Immune Deficiencies (RAPID), which was held in May 2024, in Doha QATAR.
