● **PROJECTS**

2016 – CURRENT

RAPID (Rapid diagnostic of primary immunodeficiencies)

Ukrainian Association of Pediatric Immunology Project

A series of national clinical conferences aimed at raising awareness about primary immunodeficiencies. This initiative is designed to educate healthcare professionals across Ukraine, enhance early diagnosis, and improve the management of primary immunodeficiencies, ultimately benefiting patients and their families

2021 – CURRENT

Diagnostic of Hereditary Angioedema in Ukraine

Ukrainian Association of Pediatric Immunology Project in Partnership with the Patient's Organization for Hereditary Angioedema

This collaborative initiative aims to enhance the diagnosis of Hereditary Angioedema (HAE) in Ukraine. By working together, we strive to increase awareness, improve diagnostic practices, and ensure timely and accurate identification of HAE, ultimately leading to better care and outcomes for patients

2020 – CURRENT

Epidemiological investigation of nasopharyngeal carriage of Streptococcus pneumoniae in ukrainian children

This project aims to study the epidemiology of nasopharyngeal carriage of Streptococcus pneumoniae in Ukrainian children under 5 years old. The goal is to gather critical data to understand better the prevalence and distribution of this bacterium, which can inform prevention and treatment strategies, ultimately improving child health outcomes in Ukraine

2017 – 2022

J-project

Responsible as a part of the Ukrainian team for organizing the J-project conferences in Ukraine

11/2020 – 01/2021

Advocacy work with medical society to support maintaining immunization services and preparation to COVID-19 vaccine deployment, Ukraine

Project of the Ukrainian Association of Pediatric Immunology with Support from the Ukrainian Regional Office of WHO
This project aimed to increase commitment to vaccinations within the medical community in Ukraine. By fostering greater awareness and support among healthcare professionals, the initiative sought to strengthen vaccination efforts and improve public health outcomes across the country

● **CONFERENCES AND SEMINARS**

Speaker and participant

Participation in national and international medical forums (Croatia, France, Japan, Latvia, Italy, Hungary, Turkey, Netherlands)
