

March 19 - 21, 2015 • Resort Schwielowsee, Potsdam

Thursday March 19th Innovative Diagnostics in Immunology		Friday March 20th New therapeutic principles		Saturday March 21st Tolerance, stem cells and new technologies		
09:00-10:00	Arrival and Registration	09:00-09:30	Chair: Reinhold E. Schmidt, Hannover Principles of modern biologicals – Immunotherapeutics <i>Reinhold E. Schmidt, Hannover</i>	09:00-09:30	Chair: Hans-Hartmut Peter, Freiburg Stem cells and their application <i>Fritz Melchers, Berlin</i>	
10:00-10:30		Get-together	09:30-10:00	Translational aspects in drug development for the treatment of autoimmune diseases <i>Christoph Burkhardt, Basel</i>	09:30-10:00	CD8+ T cell differentiation on the single cell level and its implications for immunotherapy <i>Dirk Busch, München</i>
10:30-11:00	Welcome and Introduction (including speakers) <i>Reinhold E. Schmidt, Hannover</i>	10:00-10:30	Principles of immunological therapies in chronic inflammatory diseases <i>Burkhard Becher, Zürich</i>	10:30-11:00	Break	
11:00-11:30	Chair: Dieter Kabeltz, Kiel Flow cytometry – advanced technologies <i>Andreas Radbruch, Berlin</i>	10:30-11:00	Break	10:30-11:00	Break	
11:30-12:00		Clinical applications and indications for flow cytometry <i>Klaus Warnatz, Freiburg</i>	11:00-11:30	Chair: Carsten Watzl, Dortmund T cell response in tumor immunology? <i>Philipp Beckhove, Heidelberg</i>	11:00-11:30	Induction of transplantation tolerance <i>Birgit Sawitzki, Berlin</i>
12:00-12:30		Preclinical animal models <i>Carsten Watzl, Dortmund</i>	11:30-12:00	Engineering T cells for tumor therapy <i>Hans Stauss, London</i>	11:30-12:00	Building a biotech company in Germany – should we give it a try? <i>Christian Hennig, Hannover</i>
12:30-14:00	Lunch	12:00-12:30	Symmetry breaking: bispecific antibodies, the beginnings and 50 years on <i>Patrick Bäuerle, München</i>	11:30-12:00	Final Discussions	
		12:30-13:30	Lunch	12:00	Farewell	

Departure

14:00-14:30	Chair: Birgit Sawitzki, Berlin Immune monitoring and biomarkers for modern biological therapy <i>Christian Meisel, Berlin</i>	13:30-14:00	Chair: Bodo Grimbacher, Freiburg Modern immune and gene therapy of immunodeficiencies <i>Axel Schambach, Hannover</i>
14:30-15:00	Proteomics and Peptidomics <i>Stefan Stevanovic, Tübingen</i>	14:00-14:30	Development of vaccines and adjuvants <i>Klaus Cichutek, Langen</i>
		14:30-15:00	Activation of RIG-I as new therapeutic target? <i>Zoé Waibler, Langen</i>
15:00-15:30	Break	15:00-16:30	Social Event
15:30-16:00	Chair: Thomas Kamradt, Jena Immunodeficiencies and their genetic characterization <i>Bodo Grimbacher, Freiburg</i>		
16:00-16:30	Autoantibodies in diagnosis of autoimmunity <i>Torsten Witte, Hannover</i>	17:30-18:00	Chair: Reinhold E. Schmidt, Hannover B cell directed therapy – depletion or modulation? <i>Thomas Dörner, Berlin</i>
16:30-17:00	RC IFA: The fastest way for the translation of novel antibody markers to the diagnostic lab <i>Christian Probst, Lübeck</i>	18:00-18:30	Treatment with immunoglobulins <i>Falk Nimmerjahn, Erlangen</i>
17:00	Expert groups I	18:30	Expert groups II
19:00	Poster presentation of participants <i>(with cheese and wine)</i>	20:00	Dinner
